

105mm Spindle Bore And 90 R.p.m Max. Spindle Speed Lathe Machine For Metal Processing

Our Product Introduction

Basic Information

- Place of Origin: Henan, China
- Brand Name: BAISHUN MACHINERY
- Certification: ISO
- Model Number: CK5112
- Minimum Order Quantity: 1 set
- Price: Negotiation
- Packaging Details: Export standard wooden case package or Negotiation with customers
- Delivery Time: 45 work days
- Payment Terms: T/T, L/C, Western Union
- Supply Ability: 50 Set/Sets per Month

Product Specification

- Max.turning Diameter: 3500mm
- Product Name: Square Ram Tornos Para Metal Double Column Cnc Vertical Lathe Machine Tool Post For Metal Turning
- Repeatability (X/Y/Z) (mm): ± 0.003
- Travel (X Axis)(mm): 1900 Mm
- Max. Height Of Wok Piece: 2000mm
- Travel (Z Axis)(mm): 1250 Mm
- Spindle Motor Power(kW): 55
- Tool Post Stations: 4
- Highlight: **Metal Processing Lathe Machine,**

Product Description

Product Description:

Equipped with a 4-station lathe tool post, this CNC metal lathe is designed to handle a variety of cutting tasks. The tool post allows for quick and easy tool changes, ensuring that you can work efficiently and effectively. Additionally, the machine's X-axis travel of 1900mm provides ample room for even the most complex machining operations.

At the heart of this lathe is a powerful spindle with a bore of 105mm. This spindle is capable of reaching a maximum speed of 90 RPM, giving you the speed and torque you need to tackle even the toughest materials. Whether you're working with steel, aluminum, or any other metal, this machine is up to the task.

But that's not all. This CNC lathe machine is also designed with ease-of-use in mind. The intuitive control panel allows you to quickly and easily program complex machining operations, while the machine's sturdy construction ensures that it operates smoothly and reliably day-in and day-out.

Overall, our CNC Vertical Lathe Machine is the perfect choice for anyone looking to take their metalworking to the next level. With its advanced features, powerful spindle, and intuitive controls, this machine is sure to become an indispensable part of your shop. So why wait? Order your CNC Vertical Lathe Machine today and start taking your machining to the next level!

Features:

Product Name: CNC Vertical Lathe Machine

Travel (X Axis)(mm): 1900 Mm

Product Category: CNC Vertical Lathe Machine

Spindle Motor Power(kW): 55

Repeatability (X/Y/Z) (mm): ± 0.003

Max.turning Diameter: 3500mm

This CNC Vertical Lathe Machine, also known as a double column vertical lathe, offers a travel distance of 1900mm in the X axis, a powerful spindle motor with 55kW, and a high repeatability of ± 0.003 mm in the X/Y/Z directions. With a maximum turning diameter of 3500mm, this CNC Vertical Lathe Machine is perfect for a wide range of industrial applications.

Technical Parameters:

Product Name:	Square Ram Tornos Para Metal Double Column Cnc Vertical Lathe Machine Tool Post For Metal Turning
Product Category:	CNC Vertical Lathe Machine
Machining Capacity:	Medium Duty
Voltage:	380V
Max. Length Of Workpiece (mm):	2500
Positioning Accuracy (mm):	± 0.005
Spindle Bore(mm):	105
Tool Post Stations:	4
Number Of Axes:	2
Max. Height Of Wok Piece:	2000mm

This product is a double column vertical lathe with CNC technology designed for metal turning, making it a great option for a CNC metal lathe machine.

Applications:

One of the key features of this CNC vertical lathe machine is its 4 tool post stations, which allows for efficient and versatile machining. Whether you're working on a small or large scale project, this lathe machine tool is perfect for any job. The positioning accuracy (mm) of ± 0.005 ensures that each cut is precise and accurate, no matter how complex the design.

This lathe machine tool is suitable for a variety of product application occasions and scenarios. It is perfect for industries that require large scale machining, such as aerospace, automotive, and defense. It is also ideal for companies that work with heavy machinery, such as mining and construction. The versatility of this CNC vertical lathe machine makes it perfect for any industry that requires precision and accuracy.

BAISHUN MACHINERY offers a minimum order quantity of 1 set, with the price available for negotiation. Payment terms include T/T, L/C, and Western Union, and the supply ability is 50 Set/Sets per Month. The delivery time is 45 work days, with packaging details available for export standard wooden case package or negotiation with customers. This CNC vertical lathe machine is ISO certified, ensuring that it meets the highest quality standards.

Support and Services:

Our CNC Vertical Lathe Machine product comes with comprehensive technical support and services to ensure optimal performance and

longevity of the equipment. Our team of experienced technicians is available to provide installation, training, and maintenance services to help you get the most out of your investment. We also offer remote technical support to troubleshoot any issues that may arise and ensure minimal downtime. Additionally, we provide customized solutions to meet your specific needs, including retrofitting and upgrading services to improve the functionality and efficiency of your equipment. Contact us to learn more about our comprehensive technical support and services.

Packing and Shipping:

Product Packaging:

Machine will be disassembled and packed in wooden boxes for safe transportation.

All necessary components and accessories will be securely wrapped and packaged separately.

User manual and installation guide will be included in the package.

Shipping:

Shipping will be arranged by the seller and the cost will be included in the product price.

Delivery time will vary depending on the destination, but it will be communicated to the buyer beforehand.

The seller will provide all necessary shipping documents and tracking information to the buyer.

FAQ:

Q1: What is the brand name of this CNC vertical lathe machine?

A1: The brand name is BAISHUN MACHINERY.

Q2: What is the model number of this CNC vertical lathe machine?

A2: The model number is CK5112.

Q3: Where is this CNC vertical lathe machine made?

A3: It is made in Henan, China.

Q4: What is the minimum order quantity of this CNC vertical lathe machine?

A4: The minimum order quantity is 1 set.

Q5: What are the available payment terms for this CNC vertical lathe machine?

A5: The available payment terms are T/T, L/C, and Western Union.

Q6: Is the price negotiable for this CNC vertical lathe machine?

A6: Yes, the price is negotiable.

Q7: What is the supply ability of this CNC vertical lathe machine?

A7: The supply ability is 50 Set/Sets per Month.

Q8: What is the delivery time for this CNC vertical lathe machine?

A8: The delivery time is 45 work days.

Q9: How is this CNC vertical lathe machine packaged for shipping?

A9: It is packaged in an export standard wooden case package or can be negotiated with customers.

Q10: Is this CNC vertical lathe machine ISO certified?

A10: Yes, it is ISO certified.
