

Cnc Single Column Vertical Turret Lathe Industry Case Max Egypt Marketing

Our Product Introduction

for more products please visit us on lathemach.com

Basic Information

- Place of Origin: Henan, China
- Brand Name: BAISHUN MACHINERY
- Certification: CE/ISO9001
- Model Number: CK5125
- Minimum Order Quantity: 1 Set
- Price: Negotiable
- Packaging Details: Export standard wooden case package or Negotiation with customers
- Delivery Time: 45 work days
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 20 Set/Sets per Month

Product Specification

- Product Name: Cheap Cnc Single Column Vertical Turret Lathe Industry Case Max Egypt Marketing
- Machine Type: CK5125
- Max. Turning Diameter(mm): 2500
- Max. Height Of Workpiece(mm): 1600
- Worktable Size(mm): 2250
- Max.weight Of Workpiece: 8tons
- No. Of Spindles: Single
- Voltage: 380V
- Key Words: Vertical Turning Lathe
- Function: Metal Turning
- Highlight: Single Column Vertical Turret Lathe, Cnc Vertical Turret Lathe

Product Description

Cheap Cnc Single Column Vertical Turret Lathe Industry Case Max Egypt Marketing

The CNC single-column vertical lathe is versatile for machining ferrous metals, nonferrous metals, and some non-metallic materials. It can perform operations such as turning end faces, internal and external cylindrical surfaces, conical surfaces, and hole drilling, expanding, and reaming. The main transmission is driven by an AC servo motor on the spindle, with hydraulic gear changes and two-gear stepless speed regulation. The worktable features a manual 4-jaw single movement chuck.

Tool Holder:

Standard equipment includes a four-station electric tool turret, sourced from YANTAI Universal Brand, recognized as one of China's premier tool post suppliers. Depending on machine size requirements, options for six and eight-tool stations are also available.

Chip Conveyor:

For machines equipped with full enclosures, a chip conveyor system is recommended to expedite the removal of scrap materials commonly found in steel industries. Its unique design optimizes chip disposal even under challenging conditions, such as those encountered in the steel pipe industry or when handling lengthy strips and large roll chips generated by wire drawing machines.

Worktable Construction:

Fabricated from high-hardness materials, the worktable prioritizes durability while maintaining substantial load-bearing capabilities. The base's guiding surface undergoes meticulous scraping to elevate machining precision, offering a competitive edge within the industry.

Electrical Control:

All electrical control components reside within a dedicated power distribution cabinet, with operational elements conveniently grouped within a centrally positioned hanging button station for streamlined access and control.

Machine parameter

Model	CK518	CK5112Q	CK5112A	CK5116Q	CK5120A	CK5126A
Max. turning diameter of vertical tool rest (mm)	800	1200	1200	1600	2000	2600
Working table diameter (mm)	700	1000	1000	1400	1800	2200
Max. height of work-piece (mm)	800	1000	1000	1200	1250	1400
Max. weight of work-piece (kg)	1500	1500	3200	3200	8000	8000
Range of worktable rotation speed (rpm)	30-260	20-180	6.3-200	15-160	3.2-100	2.2-70
Feeding series	Stepless	Stepless	Stepless	Stepless	Stepless	Stepless
Range of tool rest feed (mm/min)	0.25-90	0.25-90	0.8-86	0.25-90	0.8-86	0.8-86

Cross beam travel (mm)	500	1000	650	1200	890	1090
Horizontal travel of tool rest (mm)	500	700	700	900	1115	1400
Vertical travel of tool rest (mm)	450	500	650	750	800	800
Size of section of cutter bar (mm)	30*40	30*40	30*40	30*40	30*40	30*40
Main motor power (kw)	11	15	22	15	30	30
